DD/R reported that there was a successful [redacted] overflight yesterday and that this left one approval outstanding. DCI directed DD/R to request the Special Group this week for approval for two more flights.

DD/R was requested to furnish the report on the development of supersonic aircraft including the information which had been gotten from Kelly Johnson.

The DCI noted that Dr. Killian had again raised the question of the organization of the scientific and technical intelligence community within the Agency and that we could expect further pressure on this subject.
